- **Free evening Shuttle:**
- **6pm: Buses to dinner cruise:**
- **Dinner cruise:** 6:30 – 10:30 pm
- **Buses to Laguna Beach:**
Wednesday, 9 March

1:00-1:30 pm  OPENING SESSION – WELCOME:
   Dean Baker, Director of UCI COEH
   John Howard, Director of NIOSH

1:30-2:30 pm  KEYNOTE: Tage Kristensen, Denmark
   The Changing Nature of Work and Its Implication for Cardiovascular Diseases (125)

2:30-2:40 pm  Break

2:40-4:10 pm  PLENARY 1: The Changing Nature of Work
   Moderator - Paul Landsbergis, United States
   
   **Steve Sauter** – USA: Changing organizational practices and job demands in the United States (126)

   **Peter Smulders**, Irene Houtman – Netherlands: Trends in job control and work pressure in the European Union (127)

   Johannes Siegrist, **Simone Weyers** – Germany: Threats to contractual fairness in a globalized labour market: contributions of the effort reward imbalance-model (128)

   **Aleck Ostry** – Canada: Impact of globalization on labour markets: Implications for research on job stress (129)

4:10-4:30 pm  Break

4:30-6:00 pm  PARALLEL SESSIONS

**W11 Workplace Change, Precarious Employment and Job Insecurity (till 6:15pm)**

Moderator - Steve Sauter, United States

Johannes Siegrist, **Simone Weyers**: Work, reward and health: The role of inquiry (029)

**Emile Tompa**, Heather Scott, Roman Dolinschi: The health consequences of precarious employment experiences (053)
Michael Ertel, Eberhard Pech, Peter Ullsperger: Stress and health in freelance media workers (110)

Ellen Rosskam: Work-related stress: A 21st century global disease (113)

W12 Work Psychosocial Factors and CVD Risk Factors

Moderator - Ludovic Van Amelsvoort, Netherlands

Francoise Leynan, Clays E, De Backer G, De Bacquer D, Kornitzer M: Job stress is related to smoking cessation (020)

Hynek Pikhart, Bobak M, Kubinova R, Malyutina S, Pajak A, Marmot M: The association between psychosocial characteristics at work and problem drinking in three Eastern European urban populations (098)

Aleck Ostry, Samia Radi, Anthony D. LaMontagne: Job strain, effort-reward imbalance, organizational justice, work-life imbalance and Body Mass Index among Australian workers (001)

Sharon Toker, Arie Sharon, Itzhak Shapira, Shlomo Berliner, Samuel Melamed: The association between burnout, depression and anxiety, and inflammation biomarkers: C-reactive protein and fibrinogen: comparing gender differences (003)

W13 Biological Mechanisms: I

Moderator - Tores Theorell, Sweden

Sean Collins, Robert Karasek: Evidence of reduced vagal cardiac control variability in exhausted subjects and high strain job subjects (078)

Robert Karasek, Sean Collins: A test of the stress-equilibrium model’s structural hypotheses: Depletion of Heart Rate Variability Control Capacity (HFPApEn) demonstrated during work/rest day stress (095)

Simone Grebner, Elfering A, Semmer NK: Risk is other people? Impaired blood pressure recovery as a consequence of social stressors at work (075)

Ta-Chen Su, Yuan-Teh Lee, Suzzana Chou, Wen-Tsan Hwang, Jung-Der Wang: Twenty-four-hour ambulatory blood pressure and duration of hypertension as major determinants for intima-media thickness and atherosclerosis of carotid arteries (064)

W14 Work Psychosocial Factors and Psychological Outcomes

Moderator - Dean Baker, United States
Annet de Lange, Taris TW, Jansen MAJ, Houtman ILD, Bongers, PM: Does the relation between work characteristics and activation-related health outcomes differ as a function of age? (057)

Heather Laschinger, Joan Finegan: Job strain as a predictor of nurse burnout, health, and work effectiveness (061)

John Violanti, Michael E. Andrew, Cecil M. Burchfiel, Diane B. Miller, Chris M. Beighley, Nedra Joseph, Dan S. Sharp: Self-reported symptoms of post-traumatic stress and subclinical cardiovascular disease markers in police officers (011)

Reiner Rugulies, Ute Bultmann, Birgit Aust, Hermann Burr: A five-year prospective follow-up on the impact of the work environment on psychological distress (054)

6:30 – 8:30 pm  RECEPTION

Thursday, 10 March

8:30-9:30 am  KEYNOTE: Tores Theorell, Sweden

On the Social Dimensions in the Relationship between Psychosocial Working Conditions and Coronary Heart Disease (130)

9:30-10:00 am  Break

10:00-11:30 am  PLENARY 2: Work, Social Class & Cardiovascular Disease Risk

Moderator - Carles Muntaner, Canada

Jeffrey Johnson – USA: The growing imbalance: class inequalities in work and health in an era of flexibilization (134)

Carme Borrell – Spain: Public health research in Barcelona (131)

Karen Messing, Ana Maria Seifert – Canada: Francophone ergonomic analysis as a method for combating gender inequality (132)

David Rose – England: The UK national statistics socio-economic classification and an illustration of its uses in research on health inequalities (133)

11:30 am-12:30 pm  POSTER SESSION

12:30-2:00 pm  Lunch

2:00-3:00 pm  KEYNOTE: Robert Karasek, United States

The Stress-Disequilibrium Model of Chronic Disease Development: Low Social Control and Physiological De-regulation (136)
3:00-4:30 pm  PARALLEL SESSIONS

T11  A Stress-Disequilibrium Theory of Cardiovascular Disease – Panel Discussion

Moderator - Dean Baker, United States

Discussants:

Sean Collins (123)
Ellen Rosskam (123)
Robert Karasek (123)
Tores Theorell (123)

T12  Interventions/Training

Moderator – Maritza Jauregui, United States

Joel Bennett, Sue-Anne MacGregor: Web-based occupational/cardiovascular health education for business managers and executives (022)

Peter Schnall, Maritza Jauregui, Paul Landsbergis, Dean Baker: Future training needs to address the problem of work related psychosocial stressors and health (109)

Leslie Hammer, Robert Sinclair: Graduate training in occupational health psychology training programs (023)

Wayne Lewchuck, David Robertson, Donald Cole, Ted Haines, Mickey Kerr: Unions, labour contracts and health outcomes (045)

Birgit Aust, Antje Ducki: Comprehensive health promotion interventions at the workplace: Experiences with health circles in Germany (055)

T13  Social Class and Cardiovascular Disease

Moderator - Jeff Johnson, United States

Johannes Siegrist, Nico Dragano, Simone Weyers, Raimund Erbel for the Heinz Nixdorf Recall Study Group: Socio-economic status, work-related stress and cardiovascular risk: effect modification (030)

Heather Scott, Emile Tompa, et al: The health consequences of underemployment (079)
Bongkyoo Choi, Robert Karasek, Per-Olof Ostgren, Marco Ferrario, Patrick de Smet for the JACE Study Group: An orthogonal relationship between social class gradient and job strain axis of the demand-control model (092)

Marco Ferrario, Giovanni Veronesi, Giovanni Corrao, Carla Fornari, Roberto Sega, Rossana Borchini, Francesca Battaini, Giancarlo Cesana: Uneven differences in the risk of incident cardiovascular events among socio-occupational classes (026)

**T14 High Risk Occupations: Professional Drivers**

**Moderator – June Fisher, United States**

Olutayo Ajayi: Altered fibrinolytic response in Nigerian long distance drivers (008)

Jiu-Chiuan Chen, Yi-Jen Chen, Wushou P. Chang, David C. Christiani: Long driving time is associated with hematological markers of increased coronary risk among urban taxi drivers (049)

Orawan Kaewboonchoo, Sumlee Saleekul, Toshio Kawai: Blood lead level and blood pressure among bus drivers in Bangkok, Thailand (050)

4:30-5:00 pm  
**Break**

5:00-6:30 pm  
**PARALLEL SESSIONS**

**T21 Shiftwork and Its Impact on Health**

**Moderator - Nik Krause, United States**

Finn Tuchsen, Harald Hannerz, Christian Roepstorff, Hermann Burr: A 12-year prospective study of circulatory diseases among Danish shift workers (067)

Ghasem Yadegarfar, Roseanne McNamee: Shift work, death from ischaemic heart disease, social class and healthy shift worker effect (005)

LGPM van Amelsvoort, NWH Jansen, IJ Kant: Smoking among shift workers: More than a confounding factor (034)

Ta-Chen Su, Lian-Yu Lin, Wen-Tsan Hwang, Yuan-Teh Lee, Chen-Fong Chen, Jung-Der Wang: Elevated blood pressure, decreased heart rate variability and delayed recovery after working on a 12-hour night shift (065)
T22  Linking Occupational and Environmental Health: Diesel, Particles, and Cardiovascular Health

Moderator – Ralph Delfino, United States

Ed Avol: Mobile workers and mobile sources: Understanding exposure (117)

David Diaz-Sanchez: Diesel, particles, and cardiovascular health: The toxicological perspective (118)

Ralph Delfino: Acute and long-term cardiovascular effects in workers and the general population (119)

Sean Collins: Psychosocial factors and cardiovascular changes (120)

T23  Issues in Measurement

Moderator - Paul Landsbergis, United States

Bongkoo Choi, Robert Karasek: Application of Differential Item Functioning (DIF) analysis to the Job Content Questionnaire (JCQ) (091)

V. Bonneterre, Regis de Gaudemaris: Quantification of psychosocial and organization work factors (POWF): Special tools for health workers epidemiology (017)

Robert Karasek: Status of JCQ 2.0: Results of the JCQ workshop March 8, 2005 (096)

Maritza Jauregui: Measurement Issues involving social support (108)

T24  Physical Exposures and CVD

Moderator - Dean Baker, United States

Sumlee Saleekul, Arpaporn Pauwattana, Orawan Kaewboonchoo: Hypertension among bus drivers in an urban area, Thailand (068)

Hugh Davies, Weiwei Du, Paul Demers: Occupational exposure to noise and myocardial infarction morbidity (046)

Zhao Yiming, Wang Linzhi: Hearing susceptibility: A new risk factor for noise induced hypertension in a working population (121)

Siavash Banaee: The association between thermal conditions and cardiovascular diseases among Iran and steel industry workers (010)

6:45 pm-8:00 pm  ICOH BUSINESS MEETING (optional)
Friday, 11 March

8:30-10:15 am  PARALLEL SESSIONS (105 minute sessions)

F11  **Longitudinal Studies of Psychosocial Factors and CVD**

Moderator - Peter Schnall, United States

**Bo Netterstrom**, Tage Kristensen, Anette Sjol: Self-reported job strain increases the risk of ischaemic heart disease: A 14-year cohort study of employed Danish men (002)

**Carla Fornari**, Marco Ferrario, Roberto Sega, Giovanni Veronesi, Giovanni Corrao, Rossana Borchini, Giancarlo Cesana: Contrasting evidences on the association between job strain and coronary risk (063)

**Hugo Westerlund**, Jane Ferrie, Gabriel Oxenstierna, Tores Theorell: Workplace expansion and hospitalization for cardiovascular diseases (013)

**Els Clays**, Dirk De Bacquer, Edwin Pelfrene, Ruud Mak, Michel Moreau, Patrick De Smet, Marcel Kornitzer, Guy De Backer: Perceived job stress and incidence of coronary events: Three year follow-up of the BELSTRESS cohort (007)

F12  **Race, Gender and CVD**

Moderator - Karen Messing, Canada

**Margaret Weden**: Racial, ethnic, and gender differences in workplace conditions over the life course and the development of chronic disease (085)

**Xiao-Fei Zhang**, Catherine D’Este, John Attia, Zhi-Hong Liu: The relationship between high blood pressure and coronary heart disease among Chinese and Caucasians: A meta-analysis (014)

**Mireya Scarone**, Leonor Cedillo: Thank you for calling Telmex, may I help you: Service interactions and psychosocial risk factors among telephone women workers in Mexico (072)

**Haiou Yang**, Maritza Jauregui, Peter Schnall and Dean Baker: Work and Cardiovascular Health among Vietnamese Americans: A Pilot Study (107)

**Jinky Prado-Lu**: Organizational factors that are associated with hypertension among women workers in industries that have accommodated information technology (112)

F13  **Biological Mechanisms: II**

Moderator - Simone Grebner, Switzerland
Alderling M, Tores Theorell, Bergman P, Stoetzer U, de la Torre B, Lundberg I: Saliva cortisol – circadian variation in working men and women in relation to the demand/control model (028)

Ase Marie Hansen, Garde AH, Persson R, Karlson B: Long working hours and salivary cortisol (073)

Kumi Hirokawa, Akizumi Tsutsumi, Kazunori Kayaba: Psychosocial factors and plasma fibrinogen in Japanese females and male workers (111)

Sean Collins, Robert Karasek: Within subject cardiac vagal response to work and rest day strain (103)

10:15-10:45 am Break

10:45am-12:30 pm PARALLEL SESSIONS (105 minute sessions)

F21 Job Strain and CVD: An International Perspective

Moderator - Bo Netterstrom, Denmark

Jorge Roman Hernandez: The hidden side of subjectivity: Motivational component in demand-control model as a risk of high blood pressure (071)

Liying Xu, Weihua Cao, Liming Lee, Brian Tomlinson, Jean Woo, Juliana Chan: Job contents, family strain, psychosomatic symptoms and blood pressure among working women in Beijing (060)

Akizumi Tsutsumi, Kazunori Kayaba, Kumi Hirokawa, Shizukiyo Ishikawa: Job strain and risk of stroke: a preliminary analysis among Japanese workers (048)

Yawen Cheng, Shane-Haw Wang, Chi-Jane Wang, Shih-Hung Chan, Jyh-Hong Chen: Working hours, psychosocial job characteristics, and the incidence of acute myocardial infarction among middle-aged men in Taiwan (070)

Els Clays, Francoise Leynen, Dirk De Bacquer, Marcel Kornitzer, Guy De Backer: Associations between job strain and ambulatory blood pressure (006)

F22 Work Posture - An Emerging Risk Factor for Rising Blood Pressure Levels & CVD?

Moderator – Niklas Krause, United States

Finn Tuchsen, Krause N, Hannerz H, Burr H, Kristensen T: Standing at work and varicose veins (043)

Eve Laperriere, Karen Messing: Standing, walking, blood pressure and pain: Are they linked? (042)
Karen Messing, Stock S, Tissot F, Laperriere E, Couture V: Standing vs. walking: Can we distinguish them, and is the distinction important? (041)

Niklas Krause, Dasinger LK, Brand R, Kaplan GA, Salonen JT: Standing, walking and climbing stairs at work associated with 11 year progression of atherosclerosis (040)

Lisa Dasinger, Krause N, Brand R, Kaplan GA, Salonen JT.: Percent time at work in an upright posture associated with 11 year change in systolic blood pressure (039)

F23  Large Population Studies

Moderator - Tage Kristensen, Denmark

Leonor Cedillo, Gabriela Grijalva Monteverde: Analysis of psychosocial risk factors and trends of the employment market in Hermosillo, Sonora, Mexico (093)

Francoise Leynen, G. De Backer, D. De Bacquer, E. Clays, M. Moreau, M. Kornitzer: Diabetes mellitus is associated with an increased incidence of sick leave from work in middle-aged men and women: the BELSTRESS study (021)

Haiou Yang, Peter Schnall, Maritza Jauregui: Occupation and job characteristics variations in self-reported hypertension in working population of California (106)

Alicja Bortkiewicz, K. Rydzynski: Cardiovascular diseases as an occupational health problem in Poland (031)

Peter Smith, John Frank: Hours of work, measurement issues, trends and related social and health outcomes (024)

12:30-2:00 pm  Lunch

2:00-3:00 pm  KEYNOTE: Norito Kakawami, Japan
International Comparative Research on Work and Heart Disease (135)

3:00-4:30 pm  PLENARY 3: International Comparative Research

Moderator: Akizumi Tsutsumi, Japan

Yawen Cheng, Ke-Jong Chen, Chi-Jane Wang, Shih-Hung Chan, Wei-Ching Chang, Jyh-Hong Chen – Taiwan: Secular trends in coronary heart disease
mortality, hospitalization rates, and major cardiovascular risk factors in Taiwan, 1971-2001 (069)

**Arturo Juarez Garcia**, Peter Schnall – Mexico: Job strain, personal control and other stressors in association with blood pressure, cardiovascular symptoms and mental health outcomes in Mexican nurses (038)

**Tania Araujo** – Brazil: Reliability and validity of the Job Content Questionnaire (JCQ): an empirical test in a developing country comparing formal and informal jobs (086)

4:30-5:00 pm  **CLOSING SESSION** – Peter Schnall, Director, Center for Social Epidemiology

5:00-6:00 pm  *Break*

6:00 pm  Buses to Newport Harbor for DINNER CRUISE

6:30-10:30 pm  **CONFERENCE DINNER CRUISE**

11:00 pm  Buses return to hotel
